DETAILED ACTION

1. Claims 1-18 and 20 are allowed.
2. The abstract of the disclosure is objected to because of the use of the legal phraseology of "means". Correction is required. See MPEP § 608.01(b).

Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claim 19 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The claim is indefinite because it recites the identical limitations as claim 16, from which it depends, making it a duplicate claim. Either cancel claim 19 or make it dependent from another claim, not dependent from claim 16.
5. Claim 19 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

6. The references listed on both the PTO-1449 and the PTO-892 show art of interest only, over which the claims define allowable subject matter.

7. Applicants response to this Office action must also include the following editorial changes: on the drawing figure, provide a description of number "11"; page 8, line 16, "comprises" should be "comprise"; page 9, line 15, "that" should be inserted before "are"; page 9, line 16, "a" should be inserted before "process"; page 9, line 24, "a" should be inserted before "cost"; page 9, line 32, "a" should be inserted before "schematic"; page 10, line 1, "product" should be "products"; page 12, line 22, "Parsed" should be "Prasad et al."; page 12, line 34, "ratios" should be "ratio"; page 13, line 1, "of" should be inserted after "weight", and "a" should be inserted after "leaving"; page 13, line 19, "of" should be inserted before "exchanger"; page 15, line 13, "form" should be "from"; and, page 17, line 16, "the" should be deleted.
